In *Gift of Fire, A: Social, Legal, and Ethical Issues for Computing Technology*, Sara Baase presents a balanced exploration of the social, legal, philosophical, ethical, political, constitutional, and economic implications of computing and the controversies they raise. With an objective computer scientist's perspective, and with historical context for many issues, Baase covers the issues readers will face both as members of a technological society and as professionals in computer-related fields.

Social Rating Systems Oct 19, 2017

By 2020 (in less than 3 years), the government of China plans to have a system that assigns each person a social rating based on the person's financial transactions, how he or she behaves in public and at work, etc. Already, face-recognition technology installed along streets detects jaywalkers and displays their photos on large public screens.
