The New York Times bestseller: "You gotta read this. It is the most exciting book about Pluto you will ever read in your life." —Jon Stewart When the Rose Center for Earth and Space at the American Museum of Natural History reclassified Pluto as an icy comet, the New York Times proclaimed on page one, "Pluto Not a Planet? Only in New York." Immediately, the public, professionals, and press were choosing sides over Pluto's planethood. Pluto is entrenched in our cultural and emotional view of the cosmos, and Neil deGrasse Tyson, award-winning author and director of the Rose Center, is on a quest to discover why. He stood at the heart of the controversy over Pluto's demotion, and consequently Plutophiles have freely shared their opinions with him, including endless hate mail from third-graders. With his inimitable wit, Tyson delivers a minihistory of planets, describes the oversized characters of the people who study them, and recounts how America's favorite planet was ousted from the cosmic hub.

Ann Charters has an acute sense of which stories work most effectively in the classroom and knows that writers, not editors, have the most interesting and useful things to say about the making and the meaning of fiction. For those who want a smaller, less expensive anthology, the compact edition of *The Story and Its Writer* is the most comprehensive, diverse — the best-selling — introduction to fiction available, notable for its student appeal as well as its quality and range. To complement the stories, Charters includes her lasting innovation: an array of the writers' own commentaries on the craft and traditions of fiction. For in-depth, illustrated studies of particular writers, her Casebooks provide unparalleled opportunities for discussion and writing. For a shorter, more affordable option, the compact edition offers all the editorial features of the full edition with about half the stories and commentaries.
