Check quality of condenser and chilled water chemical levels Check condition of condenser water tubes, and clean if needed Check refrigerant levels Check refrigerant purge unit Check oil heater Check oil levels Inspect motors and starters Run a general system test to check for unusual noises, ...

CIBSE's guidance on ventilation during Covid-19 - CIBSE ...
The latest version of the CIBSE Covid-19 ventilation guidance explores this further. It emphasises that - at the least - the ventilation strategy should achieve the equivalent minimum provision of outside air ventilation rate for the space over the occupied period, as defined in current standards, and ventilation rates beyond this should ensure thermal comfort is not significantly compromised.
