Peterson's Graduate Programs in Engineering & Applied Sciences contains a wealth of information on colleges and universities that offer graduate degrees in the fields of Aerospace/Aeronautical Engineering, Agricultural Engineering & Bioengineering, Architectural Engineering, Biomedical Engineering & Biotechnology, Chemical Engineering, Civil & Environmental Engineering, Computer Science & Information Technology, Electrical & Computer Engineering, Energy & Power engineering, Engineering Design, Engineering Physics, Geological, Mineral/Mining, and Petroleum Engineering, Industrial Engineering, Management of Engineering & Technology, Materials Sciences & Engineering, Mechanical Engineering & Mechanics, Ocean Engineering, Paper & Textile Engineering, and Telecommunications. Up-to-date data, collected through Peterson's Annual Survey of Graduates and Professional Institutions, provides valuable information on degree offerings, professional accreditation, jointly offered degrees, part-time and evening/weekend programs, postbaccalaureate distance degrees, faculty, students, degree requirements, entrance requirements, expenses, financial support, faculty research, and unit head and application contact information. As an added bonus, readers will find a helpful "See Close-Up" link to in-depth program descriptions written by some of these institutions. These Close-Ups offer detailed information about the specific program or department, faculty members and their research, and links to the program Web site. In addition, there are valuable articles on financial assistance and support at the graduate level and the graduate admissions process, with special advice for international and minority students. Another article discusses important facts about accreditation and provides a current list of accrediting agencies.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
