Corresponding to the chapters in Health Insurance Today, 5th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. Performance objectives include hands-on, application-based learning activities with practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out "Release to Return to Work" forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Defining Chapter Terms activities help you review and understand key terms in each chapter. Chapter assessments test your knowledge of text content with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem solving/collaborative (group) activities emphasize the importance of teamwork in the health care field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. NEW! Key coverage of new topics includes Medicare, Electronic Health Records, and Version 5010. UPDATED! Additional ICD-10 coding content prepares you for the upcoming switch to the new coding system in October 2015. NEW! Content on Patient Protection and Affordable Care Act ensures you stay current on these significant healthcare system changes.

Corresponding to the chapters in Health Insurance Today, 7th Edition, this workbook gives you practice with the skills you will need to succeed as a health insurance professional. Practical assignments reinforce the information in the text, and engaging learning activities and exercises challenge you to apply your knowledge to real-world situations. This edition expands its focus on case studies and the use of practice management software, adding more opportunities for application in the medical office. Performance-based activities include hands-on, application-based learning exercises that provide practice in areas such as completing claim forms, posting payments to a patient's ledger, filling out Release to Return to Work forms, and filling out Medicare appeals. Critical thinking activities strengthen your ability to apply health insurance concepts to a variety of challenging situations, with Stop and Think exercises allowing you to apply critical thinking skills to solve a problem or answer a question. Chapter assessments test your knowledge with multiple choice, true/false, short answer, fill-in-the-blank, and matching questions. Problem-solving and collaborative (group) activities emphasize the importance of teamwork in the healthcare field. Case studies ask you to solve a real-world problem related to health insurance, such as completing a CMS-1500 claim form or explaining how HIPAA could affect someone recently out of work. Application exercises ask you to apply your knowledge and skills to real-world situations. In-class projects and discussion topics enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter help you learn how to perform research online. Defining Chapter Terms activities help you review and understand the key terms in each chapter. NEW! Up-to-date information is included on all topics, including key topics like Medicare. NEW and expanded case studies and Internet Exploration activities are added. NEW! Additional performance objectives are included, using practice management software. NEW! Updated charts and forms are included.

Master the skills you'll need for professional success in health insurance billing with this essential practice tool! Each chapter draws on material from the latest edition of Health Insurance Today: A Practical Approach to bring you the most practical, up-to-date preparation for the tasks you'll encounter on the job. Comprehensive review questions, critical thinking exercises, and application-based activities help you reinforce what you've learned and gain valuable experience working with real-world scenarios. Chapter Assessments test your knowledge of textbook content through multiple choice, true/false, short answer, and fill-in-the-blank questions. Over 60 realistic Case Studies prepare you for common scenarios you'll encounter in

practice. Critical Thinking Activities strengthen your ability to apply health insurance concepts to a variety of challenging situations. Group Problem Solving Activities emphasize the importance of teamwork in the health care field. In-class projects and discussion topics help you enhance your understanding of specific content from the text. Internet Exploration exercises in each chapter introduce you to valuable health insurance resources available online. Performance Objectives provide hands-on, application-based practice working with common tasks and forms. Performance Evaluation charts in every chapter enable you to assess your progress and identify areas requiring additional study and review. A companion CD simulates the health insurance billing process and familiarizes you with claim forms.

Newly revised to follow the 4th edition of Health Insurance Today, Medical Insurance Online is a practical, user-friendly online course that prepares you for a successful career as a health insurance professional. Eighteen online learning modules correspond to the 18 chapters in the text and offer short instructional segments followed by numerous application activities based on medical records from real-life case studies. You'll gain valuable experience with extracting information from the patient's chart, completing the CMS-1500, electronic claims filing, HIPAA, electronic health records, and the latest industry standards. Interactive exercises and activities - including multiple-choice, matching, short answer, image analysis, true or false, and case studies - offer multiple opportunities to recall and apply medical insurance concepts such as the cycle, organization, and completion of the claim form. Online modules correspond to each chapter of the text, making the course easier to follow. Medical records accompany training activities, challenging you to look for information in the medical record and practice abstracting relevant information from the patient's chart. An extensive glossary allows you to click on a term and read the definition at any time during the course. The text and online course connect seamlessly with engaging graphics, inviting elements, and vibrant colors, for a more interesting and educational experience. Automatically scored and graded quizzes and exams allow you to evaluate your mastery of each module's content. Clear directions help you navigate through the modules and complete the course. Reading assignments from the text for each lesson clearly connect textbook content with application and hands-on learning in the online course. Tell us what you think! At the end of the course, you'll be offered a brief survey regarding your opinion of the features and usability of the course. Your constructive feedback helps us continue to improve our online courses. Updated screens, content, and reading assignments correspond to Health Insurance Today, 4th Edition.

"COMPREHENSIVE HEALTH INSURANCE: BILLING, CODING & REIMBURSEMENT, 2/e" provides students with the knowledge and skills needed to work in a variety of medical billing and coding positions in the medical field. Comprehensive in approach, it covers the foundations of insurance, billing, coding and reimbursement. Students learn not only the submission of claims to the insurance carrier, but also reviewing medical records, verifying patient benefits, submitting a secondary claim, posting payments and appealing the insurance carrier's decision. This edition includes new chapters devoted to HIPAA and ICD-10-CM Medical Coding, as well as outstanding coverage of electronic records. Numerous case studies and patient files are included throughout and demonstrate refunds and appeals, auditing and compliance, Medicare calculations and professionalism.

Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital--based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million -- one in seven--working--age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10

million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

Prepare for a successful career in medical billing and insurance processing or revenue management with the help of Green's UNDERSTANDING HEALTH INSURANCE: A GUIDE TO BILLING AND REIMBURSEMENT, 2020 Edition. This comprehensive, inviting book presents the latest medical code sets and coding guidelines as you learn to complete health plan claims and master revenue management concepts. This edition focuses on today's most important topics, including managed care, legal and regulatory issues, coding systems and compliance, reimbursement methods, clinical documentation improvement, coding for medical necessity, and common health insurance plans. Updates introduce new legislation that impacts health care. You also examine the impact on ICD-10-CM, CPT, and HCPCS level II coding; revenue cycle management; and individual health plans. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Significantly updated to follow the 5th edition of Health Insurance Today, Medical Insurance Online is a practical, user-friendly online course that prepares you for a successful career as health insurance professionals. Eighteen online learning modules correspond to the 18 chapters in the text and offer short instructional segments followed by numerous application activities based on medical records from real-life case studies. Users will gain valuable experience with extracting information from the patient's chart, completing the CMS-1500 (02-12) form, electronic claims filing, HIPAA, electronic health records, and the latest industry standards. NEW! Updated screens, content, and reading assignments match the 5th edition of Health Insurance Today. NEW! Thorough module updates reflect the latest information in claim submission methods, challenges with Medicare, and diagnostic coding. Interactive exercises and activities - including multiple-choice, matching, short answer, image analysis, true or false, and case studies - offer multiple opportunities to recall and apply medical insurance concepts such as the cycle, organization, and completion of the claim form. Training activities focusing on mock CMS-1500 (02-12) claim forms challenge users to look for information in the medical record and practice abstracting relevant information from the patient's chart. An extensive glossary allows users to click on a term and read the definition at any time during the course. Bolded and linked terms within the text connect users to immediate definitions of key terms. Hypertext web links direct users to related websites and other Elsevier resources for further study. Reading assignments from the text for each lesson clearly connect textbook content with application and hands-on learning in the online course. Automatically scored and graded quizzes and exams allow users to evaluate their mastery of each module's content. Seamless connection between text and online course feature engaging graphics, inviting elements, and vibrant colors for a more interesting and educational experience. Medical record activities in several modules ask users to look for information within the medical record for documenting and abstracting purposes. Course orientation provides directions for completing the course and navigating through the modules. Surveys at the end of the course offers an opportunity to provide constructive feedback for ongoing course improvements. NEW! Updated screens, content, and reading assignments match the 5th edition of Health Insurance Today. NEW! Thorough module updates reflect the latest information in claim submission methods, challenges with Medicare, and diagnostic coding.
