This pioneering work revises our notions of the origins and early development of textiles in Europe and the Near East. Using innovative linguistic techniques, along with methods from palaeobiology and other fields, it shows that spinning and pattern weaving began far earlier than has been supposed. Prehistoric Textiles made an unsurpassed leap in the social and cultural.

Textiles require long, pliable string-like elements. The earliest current evidence for human awareness and manufacture of string comes (as impressions on clay) from Pavlov, a Palaeolithic site of about 25,000 B.C.E.in the Czech Republic. String: the Earliest Textile. Thin, breakable filaments of plant-bast fiber were twisted into longer, stronger threads yarns that were then twined as weft (crosswise yarns) around the warp (lengthwise yarns) and around each other to make net-like fabrics.

**Prehistoric Textiles | LoveToKnow**

Ancient textiles and clothing. Knowledge of ancient textiles and clothing has expanded in the recent past due to modern technological developments. The first actual textile, as opposed to skins sewn together, was probably felt. The first known textile of South America was discovered in Guitarrero Cave in Peru.

**History of clothing and textiles - Wikipedia**

Prehistoric Fabrics - Ancient Textiles The study of the history of clothing and textiles traces the availability and use of textiles and other materials and the development of technology for the making of clothing over human history. The wearing of clothing is exclusively a human characteristic and is a feature of most human societies.

**Prehistoric Fabrics - Ancient Textiles - Crystalinks**

At a Neolithic site at Çatalhöyük in Anatolia were found oldest known woven textiles of the Near East. They were used for wrapping the dead. Flax was cultivated from c. 8000 BC in the Near East but sheep are bred much later in 3000BC. Cotton was used for clothing in Ancient India from 5th millennium BC.
