strong pedagogical features, Ciccarelli and White focus on getting students to read their textbook. Using the most recent recommended APA undergraduate psychology learning outcomes, the authors establish clear learning objectives for students that are tied to these objectives. Student and instructors praise Ciccarelli and White's approach to teaching and learning in today's classroom. The thirteen-chapter table of contents covers the essentials that every introductory psychology student should know and fits easily into a one-semester course. A better teaching and learning experience This program will provide a better teaching and learning experience-- for you and your students. Here's how:

through Pearson's MyLab products, CourseSmart, Amazon, and more.

In the Second Edition of *Scientific Writing for Psychology*, veteran teacher, editor and author, Robert V. Kail provides straightforward strategies along with hands-on exercises for effective scientific writing in a series of seven lessons. Kail shares an abundance of writing wisdom with "tools of the trade"—heuristics, tips, and strategies—used by expert authors to produce writing that is clear, concise, cohesive, and compelling. The exercises included throughout each extensively class-tested lesson allow students to practice and ultimately master their scientific writing skills.
