A collection of poems about the four seasons by one of best-known American poets.

Likely one of the most well-known poets in American literary history, Robert Frost, born in California, lived much of his life in Massachusetts and New Hampshire, thus, his most popular poetry depicted subtle New England charm. Frost’s style was largely free verse, though he did find a fair amount of structure in poetry could often be inspiring. Forever searching for 'the sound of sense,' Robert Frost's lyrical poetry is eloquent, precise, and robust. *The Collected Poems of Robert Frost*, includes the inspiring poetry of Frost's first three collections, including his earliest major poems "The Road Not Taken" and "Mending Wall" making this edition one you shouldn't miss!

No poet is more emblematically American than Robert Frost. Hailed as 'the most eminent, the most distinguished Anglo-American poet' by T.S. Eliot, he is the only writer in history to have been awarded four Pulitzer Prizes. In iconic poems like 'Stopping by Woods on a Snowy Evening', simple images summon the rural landscape of New England, and Frost unfailingly moves the reader with his profound grasp of the human condition. This is the most comprehensive and authoritative volume of Frost's verse available, comprising all eleven volumes of his poems, meticulously edited by Edward Connery Lathem.

In writing this book, my intention is to fill a need not met by any of the excellent critical books and collections of essays about Robert Frost's poems. A few of these books provide analysis of up to 50 or 60 of Frost's poems. But none offers, as this work does, a basic commonsensical explication of all 355 poems in *The Poetry of Robert Frost* (1969), edited by Edward Connery Lathem, now the standard collection of Frost's poems. - from the Introduction by the

author.
