Welcome. This is a series of  
talks about objective  
consciousness, an objective  
universe, and an objective  
way to wake up. It is  
primarily based on the works

## **Man's Possible Evolution - First ...**

Ouspensky's 'The Psychology of Mans Possible Evolution' was published shortly after his death in 1947 together with In Search of the Miraculous. It describes how

and why man must work  
simultaneously on his  
knowledge and his being to  
find inner unity. From the  
book: And here we come at  
once to a very important  
fact. Man does not know  
himself.

Erich Fromm fought long and  
hard for the rights and  
freedoms of the individual.

He also recognized that  
fundamental to this pursuit  
is the promotion of self-  
knowledge. In encouraging  
people to analyze their own  
behavior, Fromm identified  
the crucial link between  
psychology and ethics that

Underpins all our actions. Moreover, he saw in this a way out of the meaningless impasse which he regarded as the plight of the modern human race. The task that Fromm sets himself, therefore, in Man for

## Download Ebook The Psychology Of Mans

Himself is no less than to identify "what man is, how he ought to live, and how the tremendous energies within man can be released and used productively." The resulting book is ample witness to Fromm's success.

Doing well with money isn't  
necessarily about what you

know. It's about how you  
behave. And behavior is hard  
to teach, even to really  
smart people.

Money—investing, personal  
finance, and business  
decisions—is typically  
taught as a math-based
